

Bring home a computer.

Computers are important for your child's education... and for a future job. Find low-cost computers at www.techsoup.org/go/cheapcomputers. These computers are fully refurbished and suitable for most home and educational purposes.

While there, check out low-cost Internet options, easy tech support, and free computer training also available to you and your family.

The California Emerging Technology Fund, TechSoup.org, and dozens of nonprofits envision a time when every child in California has a computer and the technology skills necessary to succeed in school.

Getting started is easy! Visit:
