What Nonprofits Are Saying About Us

We're excited that by **distributing over 846,000 donated and deeply discounted technology products** in the last fiscal year, TechSoup Stock was able to **save nonprofits \$239 million**. But it's hard to gauge the true impact of our service until we hear from nonprofits like yours—and we've heard from many, in small towns and big cities across the country. While the software box may say "word processing" or "anti-virus," we're hearing that technology donations are making a real difference at organizations of all types by providing the tools for raising funds, engaging supporters, and empowering staffers. The time and money nonprofits save is being put right back into realizing their missions.

But don't take our word for it. Here are some testimonials from nonprofits like yours:

"This donation has really helped our information technology needs. Prior to this donation, our information technology was fragmented and problems were always arising at the most inopportune times. Being a nonprofit, our budget does not allow us to purchase large items such as your donation... **your generosity is helping us to meet the needs of the increasing number of homeless in the Central Florida area who depend on us for essential services.**"

—BRENT T., COALITION FOR THE HOMELESS OF CENTRAL FLORIDA (FL)

"We are extremely grateful for this program offered through TechSoup. Without this our production would be significantly hindered as we would be allocating more of our funds toward these products rather than putting food in children's mouths or helping enable others through job creation and education. **You (with us) are making a difference in the people we serve.**"

—MICHAEL C., A WORLD AWARE, INC. (CO)

"Thank you for allowing nonprofits to increase their fundraising capabilities at a price they can afford. It has made our organization much more profitable and professional. **We can put the dollars saved towards helping more children in our community.**"

—PAT F., BIG BROTHERS BIG SISTERS OF NORTHERN NEVADA (NV)

Do you have a story you'd like to share? Please drop us a note at story@techsoup.org and let us know how technology donations from our generous donors are helping your nonprofit fulfill its mission.

Q: What brought you to TechSoup Stock?

G: A friend of mine works here and told me about the job listing. I applied, and the rest is history.
